1. Months have passed,
We haven't talked,
You've been on my mind ____
Though I'm the one who walked,
Goin' through all I said,
Wasn't as if it weren't meant,
 But words ain't always from
the heart

**Now you're standin' here
In front of my door,
We don't have to say no
more
Cos' we both know
that I don't want you to go**

2. I guess when you fall
ain't just you who's goin' down
when someone you love
is standing around
You give him the fault
fill the wound with more salt,
 you only know you're wrong
when he's gone

**Now you're standin' here
In front of my door,
We don't have to say no
more
Cos' we both know
that I don't want you to go**

3. I've tried fast cars
spent my nights in bars
Beer was my friend
Movies took me to bed
Should have know all along
I'm no good all alone
 `Cos Love is what it is,
it's where you belong

**Now you're standin' here
In front of my door,
We don't have to say no
more
Cos' we both know
that I don't want you to go**
